Warranty Conditions

Warranty is valid from date of purchase.

Annual service and / or inspection must be performed minimum once a year and by a qualified service technician.

Annual service and / or inspection must be performed according to Winncare's service and inspection checklist.

An annual service report must be filled out after each annual service and / or inspection and a service logbook or written report kept.

On completion of the service and / or inspection, a control label showing the service / inspection date and the next date of service / inspection must be visibly placed on the product.

The warranty is conditional on only original Winncare spare and wear parts being used.

The warranty is conditional on the products being correctly used, for their intended purpose only and according to Winncare's user guidelines.
